

Uneeda Enterprizes, Inc.

EDRUFLEX BRUSHES

Uneeda's Edruflex brushes combine powerful sanding qualities with durability. They are constructed with sandpaper strips and tampico set in one synthetic core. Edruflex brushes are ideal for fine sanding and denibbing of all profile shapes and sizes. They conform to different shapes and will not distort the integrity of the profile. Cosma Brushes are ideal for whitewood and sealer sanding. Try one and see for yourself.

Why Uneeda? With over 100 years of combined expertise in the abrasive industry and our complete dedication to technical support, we are sure you will be delighted with our materials, superior customer service and prompt deliveries.

What Are The Advantages To Using Uneeda Edrutex Brushes?

- High quality and consistent finish at all times

- Dramatically reduce hand sanding, therefore lowering abrasive and labor costs

- The high concentration of abrasive and tampico lengthens brush life which also lowers sanding costs

- Easy to use, throw away system
