

Uneeda Enterprizes, Inc.

UMAYD

A heat treated Aluminum Oxide product specially coated onto a heavy duty polyester backing.

UMAYD combines a heat treated Aluminum Oxide grain and a special resin bonding system enabling Umayd to offer superior abrasive life while leaving a uniform finish. In many trials, Umayd has been proven to outperform standard Aluminum Oxide materials by as much as 2:1 and to match or exceed the life of ceramic products without the high price of ceramic materials. Umayd will lower your overall sanding costs and is truly a unique abrasive product.

Why Uneeda? With over 100 years of combined expertise in the abrasive industry and our complete dedication to technical support, we are sure you will be delighted with our materials, superior customer service and prompt deliveries.

Grain	Aluminum Oxide
Backing	Polyester Cloth
Bonding	Resin/ Resin
Coating	Closed
